ASM 380 (new item)

This new manual item outlines policy procedures for APS access, use and disposal of LEIN information.

LEIN access is amended to include the governmental agency engaged in the enforcement of vulnerable adult protection laws. The agency identified is the Department of Human Services, Adult Protective Services (APS).

Although this law took effect February 1, 2006, the Criminal Justice Information Systems (CJIS) Policy Council did not grant APS access approval until April 19, 2007. In addition, APS was not provided an operating number until May 10, 2007.

Reason: Amendment to MCL 28.214 H(1) (a) (ii).
